

COPPER'S INTEGRATIVE
VETERINARY CARE, LLC

Hello, I'm Dr. Sharon Cubelo with Copper's Integrative Veterinary Care, LLC. My practice is designed to provide the alternative half of integrative medicine, including acupuncture, chiropractic, rehabilitation, Chinese herbs, food therapy, and medical massage. Our doctors are also trained to provide in-home end-of-life or palliative care. As a mobile service, everything is provided in the comfort of the owner's home within the larger Hampton Roads area. Typically, new appointments are scheduled within one or two weeks of request. Prices are available on our website.

We work on referrals and hope to work closely with the local veterinary community. We have a healthy respect for our Western medicine colleagues and want to provide services that can be complimentary in nature. Please, feel free to call or e-mail if you have any questions for both mutual patients and consultation basis. We can also set up a meet and greet if you're interested.

I've provided some brochures and cards for you and your clients. Please let me know if you have any questions about patients or about what services we do or do not provide. I'd like to be a partner in your patient's health and be a resource for you in the future. Thank you for your time.

Cheers,

Sharon Cubelo
